

# DANCE CREATE A DANCE TASK CARD

## Group Members

---

---

---

---

---

---

---

---

## Draw where each dancer will begin

## Guidelines

- It must be between 1 and 2 minutes long.
- Include at least 4 different steps you have learned.
- Include at least 1 step you have created.

## Think About

- How will you all relate to each other? Will you all do the same thing? Will you all do things at the same time?
- Will there be symmetry? Asymmetry?
- What feelings or messages are you expressing with your dance?
- How will each move flow into the next?

**Write your routine on the back side.**

## Assessment

1. Routine was between 1 and 2 minutes long.
2. At least 4 learned steps and 1 new step were included.
3. Skills flowed from one to another.
4. All group members participated and were equally involved.
5. A pedometer wearer took over 50 steps. (optional)
