

SPARK 3-6 PE – Module 02 – Aerobic Games

Action Item Activities

Participant Name:

Date:

Complete the following professional growth exercise before moving on to the Exit Assessment.

The content presented in this module will provide instructional concepts and strategies to properly plan for and successfully implement a SPARK lesson.

For this Action Item you will review what you have learned in the module then prepare for, and teach, a lesson in your curricular area using the content from the module as a basis for your planning. You will then assess your learning and the success of your lesson by completing the “Reflection on Implementation” questions.

Be sure to **save this document** for your personal professional development records.

1) Reviewing Content

A. Identify three instructional concepts or strategies you learned during this module:

-
-
-

2) Implementation of Lesson

A. Which ASAP and Instructional Lessons will you utilize for implementation?

-
-
-

B. Think about the following during your planning:

- How will you incorporate the concepts and strategies into your lesson?
- Can you identify any potential challenges during implementation?
- How will you determine if the implementation was successful?

C. Next fill out the SPARK Lesson Planner to prepare you for implementation. Then return to complete this Action Item by answering the reflection questions below.

3) Reflection on Implementation

A. What worked well? Describe modifications that can be made for future lessons.

-
-

B. What didn't work well? Describe modifications that can be made for future lessons.

-
-

C. How did you document student learning? Can you prove that you have met your objectives? If not, how will you modify your assessment methods for future lessons?

-
-
