Prep
• A variety of hazards (hoops, spot markers, cones, etc.).

Set
• Scatter hazards throughout large activity area.

Teach
• Start at the front cone with your group split into 2 pairs.
• Establish a “front” and “back” partner.
• The object is to move across the station avoiding road hazards.
• Front partners (passengers) put bumpers up (palms over eyes, elbows pointing forward).
• Back partners (drivers) place hands on partner’s shoulders.
• Driver guides passenger across the activity area using verbal cues or physical signals (e.g., pushing the L shoulder means move L).
• Start over if one of you touches a hazard.
